

whole life I have not yet come to a conclusion that would make me kiss the rod and say: I deserved it.

Little book, little book, I have tried to be a good woman and make those about me happy. Why has this awful thing been sent upon me?

(To Be Continued)

### MILLIONAIRES ARE TO COMBAT "RADICAL" LEGISLATION

Chicago with its free thought, Socialist, anarchist and other radical societies is the mother of a new organization which will be known as "The Sound Government League of the U. S."

The S. G. L. was organized for the specific purpose of fighting the initiative, compulsory referendum and recall. The sponsors of the organization are millionaires. Through the circulation of pamphlets they are going to fight for the present system of representative government with its attendant evils—the tremendous lobbies whom they employ directly or indirectly.

According to Lessing Rosenthal, one of the organizers, pamphlets are going to be sent out and speakers employed to spread the gospel of conservatism.

Chicago is becoming too radical for the millionaires who have their hordes of underpaid workers centered here. Two Socialist aldermen at the head of a radical element in the city council, the many laws which they have failed to defeat and failed to pass also helped to lead up to the creation of this organization.

Among the millionaire Chicagoans backing the league are Julius Rosenwald, B. E. Sunny, local head of the phone trust; Rufus Dawes, big banker; Harry A. Wheeler, who does odd jobs for Rockefeller; Chas. MacDowell, H. J. Merrick and others.

The league isn't going to oppose logical reforms, but will fight "fallacious theories." It has been in formation for four years.

### MRS. EDISON FIGHTS TOO LOW DECOLLETE

MRS. THOMAS EDISON

The Women's club of Orange, N. J., has started a campaign against extreme low-cut dresses at social functions in New Jersey suburbs. A leader of the women is Mrs. Edison, wife of the inventor.

### SWEITZER AND THOMPSON MIX IN ALDERMANIC PRIMARIES

Goy, Dunne, Mayor Thompson, County Clerk Sweitzer and Roger Sullivan will stump the city next week in the hottest aldermanic election in years. Mayor Thompson is not satisfied with the present personnel of the city council. It has several times differed from him in unmistakable terms.

Sweitzer is going to tell a lot of things about the present administration—what he thinks about it. He will speak in every ward in the city and the mayor has decided to concentrate his efforts to nine of them.

Carl Manch, 24, 1232 Sedgwick, suicide. **Repe.** Out of job.
